Bulk Water - Fire Hydrant Use Application:

I/we, hereby request that the District of Kitimat allow extraction of bulk water from the fire hydrant located _____

I further request that a side outlet gate valve be placed on this fire hydrant

at

_____ (time) on _____ (date) _____

and be removed at _____ (time) on _____ (date) on _____

I fully acknowledge that I will be responsible for any loss or damage to District of Kitimat facilities or equipment as a result of this request.

I anticipate that _____ gallons will be extracted.

The fee for these services paid is for providing all District of Kitimat services are performed during regular working hours and the water volume extracted is less than 80,000 gallons. If valve installation or removal is required outside regular working hours the applicant will be responsible for additional District of Kitimat costs. Payment of this fee is to be made at time of application.
