

Approval No.: _____

Contaminated Soil means soil, sediment and/or fill material containing substances in quantities or concentrations greater than those specified in provincial environmental quality standards, but which is not a hazardous waste under Hazardous Waste Regulation

Soils Suitable for On-site Use means soils free of contamination and free of rocks and organic materials; on-site suitability is to be determined by the Site Operator

Soils Unsuitable for On-site Use means soils mixed with other wastes, rocks and organic material but does not include Contaminated Soils

IMPORTANT: This form is to be completed by a representative of the controlled waste generator. Complete sections that are applicable to generated waste, sign and date. Please attach any additional information (analyses, etc.) that describes the controlled waste. Send completed applications to waylesswaste@kitimat.ca. We are collecting your personal information under section 26(c) of the *Freedom of Information and Protection of Privacy Act* to verify that all materials accepted for disposal are compliant with our BC ENV operational permit. If you have questions about our collection of your information, please contact us at administration@kitimat.ca or at (250) 632-8900

The generator warrants that, to the best of their knowledge, the information provided on this Application is true. The generator acknowledges that, if the waste referred to in this Application is determined to be other than as represented in this Application, the generator, at their sole expense and risk, will attend such place as the material is located and remove the material immediately upon instruction from the District of Kitimat to do so. Failure to remove the waste will entitle the District of Kitimat to deal with the waste in the manner they consider appropriate in the circumstances, at the sole expense and risk of the generator. Source of material must be from within the district service area. One source per load.

Legal Description:	

Have you ever received a Notice of Likely or Actual Migration per Section 57(1.1) or 60.1(2) of the Contaminated Site Regulation for this property:

Yes No

Has the property ever been used for any industrial or commercial uses described in Schedule 2 of the Contaminated Site Regulation:

Yes No

If Yes – Schedule 2 reference and description (include high-risk designation, if applicable):

Reason for Generating Controlled Waste:

INERT FILL DETAILS

Is the application for single fill type or multiple fill types:

Single Multiple

Physical State:

Dry Damp Water Saturated

Other:

Odour:

Strong Slight None

Describe:

Debris in Fill:

No Yes

Describe:

Approximate angle of the stockpile (explain pile stability. Can it hold itself up?):

Component: (topsoil, sand, gravel, silt, clay)

Composition (%):

Component: (topsoil, sand, gravel, silt, clay)	Composition (%):

FILL CLASSIFICATION

Is there any reason to believe the inert fill would meet the definition of “contaminated” as defined by the Contaminated Sites Regulation or be leachate-generating? <input type="checkbox"/> Yes <input type="checkbox"/> No
If YES, Describe:
Has a representative sample been submitted for analysis? <input type="checkbox"/> Yes, please attach analytical results to the application <input type="checkbox"/> No, please explain why.
