During the month of October of each year, Council will determine the level of Council and Mayoral remuneration.

For purposes of Council remuneration reviews, Council's practice has been to use the B.C. Consumer Price Index increase from August to August. In order to maintain consistent data, the following website and table will be used:

www.statcan.gc.ca

Consumer Price Index

Consumer Price Index by Province, and for Whitehorse, Yellowknife and Equaliuit.

Proposed amendments to the Municipal Code will be considered at the earliest possible date and generally not later than October 31st in each year.

If the CPI is negative, remuneration will be red circled and the negative percentage will be deducted from a future raise when the CPI is positive.

Example:

CPI is -1.1% - Remuneration red circled.

Following Year CPI is 2%. Minus 1.1% and remuneration recommendation would be .9%.
