

District of Kitimat COVID-19 Community Update

March 25, 2020

STAY HOME

The District of Kitimat commends all who are practicing physical distancing and self-isolation during these time. Cases of COVID-19 in our province and country continue to increase daily.

Physical distancing is a must! This includes all public spaces including outdoors and places of business.

STOP THESE ACTIVITIES IMMEDIATELY.

Please ensure you and those in your family are not meeting in groups, using playgrounds, or participating in any activity that puts others in our community at risk.

Along with the other municipal facility closures, the District has moved to close the community off-leash dog park.

The Haisla Nation has requested “that only local traffic and persons conducting business on behalf of the community” enter Kitamaat Village. This measure is being taken to prevent the spread of COVID-19 in their community.

We must all work together to minimize the threat of COVID-19. Individuals who are not taking every precautionary measure are risking the lives of our most vulnerable community members.

Stay home! Be a part of the solution!

KITIMAT
A Marvel of Nature and Industry
