

**KITIMAT**  
A Marvel of Nature and Industry

## **COVID-19 RECYCLING OPTIONS UPDATE**

**April 9, 2020** – The District of Kitimat is working with Kitimat Understanding the Environment (KUTE) to develop a strategy to safely re-open their facility at a reduced service capacity to only receive cardboard and electronic waste. It is anticipated that KUTE will re-open during the week of April 20 – 24. The date may be subject to change as safe operational protocols are established.

The District of Kitimat encourages all residents to hold on to all other recyclables, whenever possible, until the receiving facilities are up and running once again.

Thank you for your patience during these unprecedented times.
