Subject: Townhouses at 1425 Nalabila Boulevard

The development of these townhouses at [1425 Nalabila Boulevard](#) looks great but what about the people that are living there right now. Are they given the chance to move back in after updates are done at the same rent they are paying right now or are you going to have them homeless because they can't afford the rent increase. Anyone checking this out for our residents that live here permanently not just for a few years and gone.

A very concerned resident
