Subject: Parking-FLUOR/LNG

Hi there, it's Rick from 163 konigus. I'm sure the parking will be fine but one concern-Bats
The Bat House you might consider relocating in light of yesterday's news of rabies.
Bats are 13% carriers of Rabies and yesterday a 21 year old died from confined rabies inflicted
by a bat.
Perhaps low incidence risk but the Bat House is so close, it's a possibility. I'd move it if it was
up to me. RT
