Apologies for the delayed delivery of this document. Also in light of COVID having to resort to email rather than a physical letter.

As a resident of Kitimat for over four years, a resident of Strawberry Meadows and a manager with a local business, I firmly believe that the addition of the Go-Karting facility will be a fantastic opportunity for Kitimat. This facility will provide a year round activity that everyone from Kitimat and the surrounding areas can access and enjoy. It will be an excellent opportunity for Kitimat residents of all ages to experience the thrill of Go-Karting it may even stimulate and create the next F1 or NASCAR champion from here in Kitimat! Having this facility on our doorstep will allow schools and businesses to utilize the facility for team building and social events.

Wishing you good luck with your application and your new business venture

Regards

Dominic Feenan
