**Subject:** Development Permit at 100 Loganberry Ave

To Mayor and Council,

I would like to state that I fully support the proposed care home for 100 Loganberry , and know this is something Kitimat has needed for a very long time.

Hopefully there is room for additional expansion as 10 rooms is a great start but having been involved with the assisted living facility in town , and seeing more residents now staying in Kitimat long after retirement, 10 beds will fill quickly, and stay filled!

I hope council will also do everything in their power to fully support and assist where possible the building and completion of this project, both monetarily ( if required) and by keeping the roadblocks and red tape to a minimum.

Regards,

**Brad Opheim – Fleet & Commercial Sales Manager**
