The Honorable City Council  
270 City Centre, Kitimat, BC  
V8C2H7

Respected Mayor Germuth & Council Members,

We would like to bring it to respected Council's notice that one of the letters submitted against us are from Mr. Rob Macisaac who also has a vested interest in this matter as we will be his only competition to begin with. Second letter is from Ms. Roberta Walker who is his mom and has accompanied him to all the meetings and has been very vocal against our location mall in 2 earlier meetings. Third letter is from Mr. Noel Walker and since he shares the last name and address with Ms. Walker (as indicated on the letters in agenda) he is the member of the family too. We respect their opposition but in our defense it is a valid point that out of all 4 letters of opposition , 3 have been received from the family of a person who we are competing with in this business. All three letters suggest they are not against cannabis but the location. But we believe running a sensitive inventory store in a busy mall surrounded by other stores make it safer against crime because of the double security of mall and our own security. A stand alone store is prone to be targeted easily.

We are here just to run a safe and honest operation and we think our 20 plus years experience dealing with age restricted product will be a bonus.

Thank you so much for your attention,

Yours Sincerely

Iqbal Bath and Inder Dhillon
