To Mayor and Council

Re: Rezoning 461 Quatsino Blvd

We live on Cranberry Street and we do **NOT** support this rezoning. We bought our home three years ago because we were drawn to the appeal of “county living” with the peace and privacy that comes with it. The proposed four-storey, multi-purpose building will have a hugely negative impact on this. Strawberry Meadows was designed as a residential neighborhood for single family dwellings and a huge four-storey, multi-purpose building does not belong here. Not to mention the increased traffic flow that will come along with this. Our home shares a property line with this lot and a building of this size will bring down the value of our property and certainly is not what this residential neighborhood was intended for. I can say with certainty that had a four-storey building already existed in this lot, we would never have purchased our home here.

While we understand and support the need for a project like this, we do NOT support this site for it.

There must be a more suited parcel of land that could be used for this worthwhile project.

Sincerely,

Dan & Tanya Allen
