Mayor and Council

We are writing as residents in Strawberry Meadows in opposition to the rezoning of 461 Quatsino. Our home was built in hopes that all properties in our area would have similar zoning and bylaws. We hope council seriously considers the concerns of its tax payers who have built in a low density RESIDENTIAL area and now find a proposal to Rezone which will definitely negatively impact the surrounding residential neighbourhood. Our hope is the project can be built in an area large enough for present plans and allow for any future expansion if needed without rezoning in another 10 years.

Thank you

Brian and Brenda Kochan
