Dear Mayor and Council:

I would like to express my full support for the housing project and proposed location put forth by the Tamitik Status of Women Association. This much needed and long awaited resource is a timely and progressive addition to our community. The location at 461 Quatsino Boulevard was selected after thorough assessment and careful deliberation which took into account multiple factors. The location and project design allows for optimization of service delivery, ease of access to diverse resources, and proximity to other families – an important means to facilitate integration, mitigate social stigma and reduce isolation.

The aesthetic value and appeal of the location and architectural style of the structure will not only benefit the residents and staff who occupy the building, but will also be a form of social and economic currency for the neighbourhood and community as a whole.

Sincerely,

  
Jacqueline Ramdatt
