Subject: TSW Consultation

The direct stockholders would like to have a meeting with the District of Kitimat and Tamitik Status of Women to engage in the consultation process. To date we have had no consultation with the proponent and would like to discuss the issues. We do not consider writing letters and attending a meeting in which we get no answers consultation. We want a dialogue to discuss concerns as stated in your OCP - "discuss early and often".

We await your reply.
