This application is essentially proposing an institution be placed in a residential neighbourhood. If this was proposed as a women's shelter it would be welcomed, however it is not. It is a commercial institution.

I am all for the T.D.W. just not at this location.

To say you are going to have a middle school program so close to the Strawberry meadows is outrageous!

It also will be so high of a building there will no chance of the trees & gardens of the Meadows Aves.

Also the camp workers & all the women in the shelter would probably be a fuss also.

I am ok with a women shelter and that's it. This development was based on rural living and not on commercial and social housing. The building would intrude on people who built down there for privacy and personal living. Changing the zoning opens the door for other high density living as proposed earlier by the Rigonis on Blueberry Ave. We already changed our zoning for a trailer camp instead of a lodge as originally proposed, "eye sore". That will happen here also with more health related services needle injection site, and so on.
