

DISTRICT OF KITIMAT
SEWER SERVICE VIDEO INSPECTION
AGREEMENT

_____ Service Type _____
(print name) (address)

Phone: _____ Date: _____ Technician: _____

I agree to the following statements listed below to allow the District of Kitimat to provide a sewer service video inspection of the address above:

The District of Kitimat is providing this video inspection as a service to provide additional information to assist in determining the source and cause of the sanitary/storm sewer service problems experienced.

There is no guarantee or warranty on the accuracy of this service, however, along with drawings and other available information it may assist in more efficient location of the problem.

1. I agree to ensure the existing sewer is clear of obstructions and free flowing prior to the video inspection and agree to engage a plumber to ensure as such prior to the inspection if required. I recognize that inspection cannot take place if the service pipe is blocked or filled with liquid.
2. The sewer entry point for the inspection must be accessible, minimum pipe size is 100 mm (4 inches), and open for entry prior to the arrival of the inspector. The video camera cannot pass through abrupt 90° bends.
3. The owner or a recognized representative of the owner must be on site during the sewer video inspection.
4. The owner shall save the District of Kitimat and their representatives harmless from any damage that may occur to the owners property while carrying out the sewer video inspection.
5. The owner is responsible for providing any covering necessary to protect existing surfaces within the premise.
6. A standard 110 volt household electric receptacle must be within 10 feet of the sewer cleanout or an extension cord available to provide power for the video equipment.
7. The owner is responsible for all costs to retrieve the video camera and equipment if it becomes lodged or trapped in the service while carrying out the video inspection within the property boundaries.
8. The owner agrees to pay a default amount of \$50 if the Municipality arrives on site at the pre-arranged time and are unable to carry out the inspection due to the owner not meeting Items 1 to 3 above, or if the service line has excess debris present and requires abandoning the inspection.
9. Upon completion of the sewer video inspection and payment by the property owner, the District of Kitimat will provide the owner with a copy of the video inspection written report showing the results of the inspection.
10. I agree to pay the District of Kitimat \$100 in advance for a service video inspection. I understand that there is no refund of fee(s) paid regardless of the outcome of the video inspection.
