KULDO TRAFFIC LIGHTS

October 30, 2018 – Due to a traffic accident, the traffic lights at the Kuldo intersection are out of service.

The District of Kitimat is currently scheduling the repair and will commence when the parts arrive. As this is a significant repair, we don't expect the work to be completed until November 9th. The lights will remain on flashing red, which means a four-way stop is in effect.

Thank you for your patience as we undertake these repairs.
