

# UPDATE:

## 2020 Summer Plaza & Greening Project

### 2020 Summer Plaza

On 13 July 2020, the District of Kitimat began work on the 2020 Summer Plaza, a temporary pilot project in the lower level parking area of Downtown Kitimat. The summer plaza provides pedestrians with an outdoor community gathering space separated from vehicles. Planters have been placed around the plaza to add some greenery to the area.

Adjustments will continue throughout the summer. Picnic tables have been ordered and will be added when they arrive. To accommodate the summer plaza, four dedicated taxi spaces have been moved over a row, closer to the mall entrance. The public is asked to please refrain from using these spaces. Please see the map on page 2 for details.

Please follow COVID-19 safety protocols while enjoying the summer plaza.

### Community Greening Project

The District will be introducing three trees near the summer plaza as part of a separate pilot project. See the concept drawing and map for tree locations.

Information gathered from both of these pilot projects will help us make further development decisions for the downtown area.

If you have any questions or concerns, please contact District of Kitimat, at [dok@kitimat.ca](mailto:dok@kitimat.ca) or 250-632-8900.

**Thank you for your interest in Downtown Kitimat.**
