A Marvel of Nature and Industry

HIGH STREAMFLOW ADVISORY

February 19, 2021 – The Provincial River Forecast Centre has issued a “High Streamflow Advisory” for the Kitimat Valley. A combination of rising temperatures and heavy rainfall is expected later tonight and tomorrow which may cause water levels in the Kitimat River to rise. The Kitimat River can rise quickly and without warning. The public is advised to use extreme caution if engaged in activities near the river.

Stay safe.
