### Design Guidelines

In order to be eligible for this grant, the applicant must submit designs and costing for the project. Grants will be awarded based on merit, as determined by District of Kitimat and Kitimat Chamber of Commerce staff.

Designs need to clearly outline the proposed improvements to allow the review committee to accurately evaluate the project, and clearly see that the finished product looks like what was intended during the application process.

As far as possible, projects must be consistent with the general form and character of the design guidelines set out for the area.

For businesses located within the Downtown Revitalization Area, the improvements should align with Kitimat's Downtown Design Guidelines. A PDF version of the guidelines is available on the municipal website at: <https://www.kitimat.ca/en/business-and-development/downtown-design-guidelines.aspx>

Building, sign and/or other permits may be required based on the extent of the improvements to be completed. These requirements are not waived by approval for the Business Façade Improvement Program and should be applied for prior to or concurrently with application for this program.

## Business Application Process

Applications will be accepted by the District of Kitimat Economic Development Department by mail, in person or electronically.

Submitting an application does not necessarily mean your project or a specific grant amount will be approved. All project proposals are subject to a comprehensive review, must meet high quality standards, and must reflect the spirit and intent of the Business Façade Improvement Program Guidelines.

1. Owner/Tenant contacts the Municipality to determine if the building qualifies for the Façade Improvement Program, discuss your project, and obtain the Program Guide and Application.
2. Owner/Tenant submits a completed application with designs. All required supporting materials and documents (including owner authorization) must be received prior to being considered complete.
3. Staff reviews the application and proposed façade improvements to ensure that improvements meet the applicable Design Guidelines and Business Façade Improvement Program Guidelines.
4. Applications are reviewed and a decision to accept or reject the application is made.
5. Applicant is advised of the decision by email.
6. For successful applications, a Letter of Understanding is sent to the applicant which must be signed by the owner/tenant and a representative of the Municipality.
7. Owner/Tenant acquires any required permits and completes the renovations.
8. Owner/Tenant provides verification of expenses (including invoices or other confirmations of payment) and submits totals on the provided Expense Reporting Form.
9. Owner/Tenant provides a Certification of Completion signed by the applicant or contractor, indicating that all work described in the application/approval and has been paid in full, as well as before and after photos, a business testimonial, and any other supporting documentation.
10. Owner/Tenant provides proof that the improvements have passed final inspection for municipal permits (where required) and meet all building standards and codes (where required).
11. Staff verifies that the renovations meet the Letter of Understanding requirements and approves reimbursement.
12. Applicant is issued a cheque.

### Please note:

Approved projects should be completed by year end (December 31). Funding cannot carry over from one calendar year to the next.

### **Evaluation/Selection Process**

A three (3) member Project Review Committee comprised of District of Kitimat (Economic Development and Planning) and Kitimat Chamber of Commerce staff will review applications and determine which projects qualify for funding.

All eligible projects will be evaluated using the following ranked criteria:

- Has the owner/tenant demonstrated how the modifications will benefit the business?
- Does the project for which the funds are being sought meet the applicable Design Guidelines?
- Will the project provide a noticeable improvement on the streetscape?
- Was a professional designer or architect used?

Older buildings may be prioritized for approval depending on the number of applications received.
