

CONSTRUCTION NOTIFICATION

Coastal GasLink is committed to creating an extraordinary legacy of safety and respect for all people, communities and the environment. As part of this commitment we are keeping our neighbours along the project route informed on construction activities happening near their community. Please note the following information:

What: Coastal GasLink has upgraded Lower Dyke Road and created a new, alternate access trail which will allow direct and safe access to the Kitimat River as activities continue in support of mainline pipeline construction, and direct pipe installation (DPI) under the Kitimat River and requirement for equipment transportation to site along the Project right-of-way, utilizing Dyke Road for access and Lower Dyke Road.

When: Construction activities are expected to begin on July 6, 2020 and will be conducted daily between 6 a.m. and 6 p.m. and will continue until approximately the end of November 2020 in some areas. The alternate access trail is accessible by pedestrian and motor vehicles from 6 p.m. to 6 a.m. up to seven days a week, and remains restricted during the day due to construction.

Where: Construction activities will commence at the Kitimat River and progress in parallel to Lower Dyke Road until reaching the juncture at the dyke itself.

Expected Duration: Pipeline construction activities and subsequent access restrictions are expected to run from July 6 – November 30, 2020.

Potential Impact: While there are no anticipated permanent road closures required as part of this activity, however, some traffic control at intersections will be required for specialty equipment to make wide turns. Pedestrian access to an unregistered road commonly referred to as “Lower Dyke Road” will be partially restricted during construction hours. Access to the river via Lower Dyke Road will also be restricted during this time.

Map: Please see following page.

Questions regarding these activities or general project construction can be directed via email to coastalgaslink@tcenergy.com or by phone to 1-855-633-2011.
