

Congratulations to LNG Canada and JGC-Fluor

April 27, 2018 – The District of Kitimat extends congratulations to LNG Canada on selecting its Engineering Procurement and Construction (EPC) contractor. This is another significant milestone in LNG Canada’s journey towards potentially building an LNG export facility in Kitimat.

We also congratulate the successful EPC bidder, JGC-Fluor, and commend all three of the unsuccessful candidates; all of whom conducted a tremendous amount of work to put forth strong bids.

The District of Kitimat will work with LNG Canada, JGC-Fluor, and all other stakeholders to continue to promote the development of an LNG export industry in Kitimat, ensuring that benefits will be secured for our residents, British Columbians, and all Canadians.
